

PRODUCT NUMBER: 1013530
Impact Sport Earmuff

[Learn more about our products at howardleight.com](http://howardleight.com)

Overview

Reference Number
 1013530

Product Type
 Hearing Protection

Range
 Earmuffs

Line
 Sound Management Earmuffs

Brand
 Howard Leight by Honeywell

Brand formerly known as
 BILSOM

Product Use
 Hunting and Outdoor Shooting

Features & Benefits

Feature

BLOCKS IMPACT NOISE TO A SAFE LEVEL Impact Sport blocks impact noise from gun shots and heavy impact noise machines. **AMPLIFIES AMBIENT SOUND TO AVOID ISOLATION** Impact Sport's patented sound amplification enhances the wearer's awareness of their environment by amplifying ambient sounds, allowing them to hear important communication [co-workers, alarms/warning signals]. Sound amplification volume does not exceed 82 dB - response technology revert to passive hearing protector when noise reaches 82 dB. **SLIM CUP DESIGN** Slimest cups on the market for comfort when

in position of shooting. DIRECTIONALLY PLACED STEREO MICROPHONES Provide more natural hearing. Ideal for hearing-impaired workers. AIR FLOW CONTROL™ TECHNOLOGY Bilsom's patented Air Flow Control technology delivers optimal attenuation across all frequencies, without increasing earcup size or weight. A patented baseplate chamber and high-tech non-woven layer manage the flow of air inside the earmuff to control how sound reaches the ear. The result is better, more consistent overall attenuation for virtually all industrial noise environments. Air Flow Control is a standard feature on all Impact series earmuffs. SNAP-IN EAR CUSHIONS Make replacement quick and easy.

Benefit

The Impact Sport earmuff blocks harmful impact noise while enhancing user awareness of their environment through advanced sound amplification technology. Impact Sport allows wearers to hear important communication - other co-workers, alarms and warning signals - at a safely amplified level.

User Manual

Earmuff Instruction Poster - EN

Maintenance

Life Cycle

Cushions should be replaced periodically to retain maximum attenuation. Use the following as a guideline for replacement of ear cushions and insert foam. General use and wear - Ear cushions and foam inserts should be replaced at least every 6 months. Heavy use or wear in humid/extreme climates - Ear cushions and foam inserts should be replaced at least every 3 months. Cracking or leakage is visible - replace ear cushions and foam inserts immediately.

Storage Information

When not in use, the earmuffs should be stored in a clean dry container or locker. Do not use solvents or petroleum-based products. Do not immerse the earmuffs in water.

Care Instructions

Earmuffs are an important safety product and should be inspected regularly. Its use, care and maintenance are critical to its effective performance. Earmuffs and in particular ear cushions may deteriorate with use and should be examined at frequent intervals for cracking and leakage. If the ear cushions become hard, damaged or deteriorated, they should be replaced promptly using recommended Hygiene Kits. Earmuffs should be maintained by regular cleaning. Use a mild disinfectant solution. A gentle wipe is all that is required.

Parts & Accessories

Accessories

Hygiene kit Packed in a plastic bag, including two ear cushions and two dust covers. Ref # 1015280 for Impact Sport Beltclip - For carrying purpose. Old Ref. # 1000252 New Ref. # 1016730 Cool II Pads - Sweat absorbing pads. Ref. # 1000365 5-pair, Ref. # 1000364 100-pair

Optisorb - cotton sleeve slides over earcup. Ref. # 3302101

Polar Hood - Ref. # 1016870 Lg/XLg; Ref. # 1016871 Sm/Med

E.C. Declaration of Conformity

The manufacturer or its legal representative supplier in the European Community:

Honeywell Safety Products Europe

Declares that the Personal Protective Equipment described here after conforms to the provisions of the European Council Directive 89/686/CEE:

Designation: Impact Sport Earmuff

Reference: 1013530

Standard(s): EN-352-1:2002

This PPE is the object of the below EC examination certificate n°:

23140S01
