Product Use

The MC95s are Supplied Air Respirators, conforming to EN 139:1995 standard requirements.

These devices are designed to supply a continuous flow (from 120 to 300 l/min) to a SPERIAN COSMO or PANORAMASQUE full-face mask conforming to EN 136 : standard requirements, or to a Sperian half-mask with an RD40 x 1/7" connection, conforming to EN 140 standard requirements.

These devices are not autonomous and must be Sperian medium pressure hose.

They can only be used in sufficiently ventilated premises where the atmosphere contains a minimum oxygen volume of 17%.

CHARACTERISTICS :

-MC95 devices include :

- A rotating RD40 x 1/7" connection conforming to EN 148-1 standards, which can be connected to a full-face mask or a half-mask
- A breathing hose, connecting the valve to the harness belt
- An air flow adjustment valve, ensuring a minimal continuous flow of 120 l/min to the mask with the valve closed and an air pressure supply in the device higher than 7 bars
- A pressure-relief valve limiting the exhalation effort
- A belt or harness supporting the breathing hose as well as the supply hose
- A flexible air supply hose, with connectors and a safety hook
- A pressure reducer and indicator.

Features & Benefits

Feature

EN 139

Benefit

Product suitable for difficult working conditions

Feature

Traction on the tube

Benefit

- Sturdy - Safe

Feature

Staubli RBE6 connection

Benefit

On request

Feature

Pressure regulator from 4 to 8 bars

Benefit

Safe

Feature

Flow inside respirator up to 300 litres

Benefit

Worker can adjust the proper flow according to the effort involved

Feature

Operates with Half-mask

Benefit

Easy to use

Certifications

EU Category PPE

3

EU Certification

EU Attestation
