

PRODUCT NUMBER: 6243850
ASCENDER S3 CI SRC

Honeywell

Overview

Reference Number

6243850

Product Type

Footwear

Range

Athletic

Brand

Honeywell

Industry

- General Industry
- Logistics
- Maintenance

Product Use

Safety footwear for professional use

Technical Description

Sizes

37-47

Table Size

Table size BACOU

Midsole

Anti puncture midsole (1100 N) FLEXIUM™ metal free - ultra flexible - amagnetic - thermal insulation - stable - Protects 100% of the foot surface

Upper

- Water resistant leather and textile upper - Poromax® 3D lining : breathable, absorbent, fast drying - Forefoot and heel reinforcements - Speed lacing system and secured lace pocket - Watertight bellows - Coolmax® insole for an optimal perspiration absorption

Toe Cap

200 Joules Athletic non metallic™ Toe cap - ultra light (50% lighter than a steel toe cap) - Non metallic - Thermally insulating - Inalterable

Outsole

PU/TPU sole : Choc absorption, stability & flexibility - Density comfort layer : 0,5, with optimal comfort - TPU layer density 1.1 - Adherence coefficient meets the 1:2007 amendment to the EN ISO 20345:2004 standard Values for size 42 : On steel floor Heel 0,27 (standard min. 0,13) flat 0,28 (standard min. 0,18) On ceramic floor Heel 0,40 (standard min. 0,28) flat 0,37 (standard min. 0,31) - Energy absorption capacity > 20 joules. - Exceptional resistance to abrasion: Loss in volume <60 mm3 under 10 Newton load = 1 kg - Elongation at rupture: 650 %. - Optimized resistance to repeated flexing >

60,000 - Mattia flex meter test, standard >30,000 - Excellent hydrocarbon resistance: * Volume variation (22 hour test) * ASTM N°3 oil swelling < 0.5% * isooctane-toluene (70/30) swelling < 4% - Resistance to acids and bases: limited to weak concentrations - Tear Strength: 12 KN/m

Additional Information

User Manual

User Instruction EN ISO 20345 2011-Footwear-Honeywell-032012

Maintenance

Life Cycle

If the footwear is supplied with a part of, or the whole sole unit made of polyurethane:

We advise that the footwear should be used in the limit of 3 years following the manufacturing date, which figures on the footwear.

After this time limit, certain factors such as : exposure to sunlight, hydrometry, temperature changes, could cause a modification in the structure of the material, which would no longer maintain the same performance levels with regards to the requirements defined in the European Directive 89.686 CEE.

If the footwear is supplied with a sole unit made from a material other than polyurethane:

We advise that the footwear should be used in the limit of 5 years following the manufacturing date, which figures on the footwear.

Storage Information

Footwear should be stored in their original packaging, kept in a controlled stock area, not subject to rapid changes in temperature or humidity levels.

Care Instructions

After use leave your footwear to dry in an aired place away from heat

Remove any excess dust or dirt with a brush. Remove any marks using a damp cloth and soap if necessary.

Finally polish any grain or pigmented leathers using a commercially available shoe care product.

En exécution de la Directive 89/686/CEE du 21 décembre 1989 concernant le rapprochement des législations des états membres relatives aux équipements de protection individuelle et des décrets n° 92-765, 766 et 768 du 29 juillet 1992 portant transposition de cette directive en droit français,

In application of the Directive ref. 89/686/EEC of 21st December 1989, concerning the alignment of member state legislation relating to personal protective equipment and the decrees n° 92-765, 766 and 768 of the 29th July 1992 concerning the transposition of the Directive into French law,
